There was general agreement that, given adequate facilitiei, courts could effectively deal with rural litigation. The Law Ministers noted in this regard the Pilot Project Scheme evolved by the High Court of Karnataka which led, within a period of one year, ta the disposal of about fifty per cent of the cases in the selected districts. While commending this Scheme, the Law Ministers recommended the adoption of the Karnataka model or a model similar to it in other States. The Law Minis-ters also considered that the efforts of subordinate courts in the matter of rural litigation would need to be supple-. mented by those of Lok Adalats, The recommendations have been forwarded to all State Governments and High Courts for implementation.

Central Assistance is being provided by the Committee for Implementing Legal Aid Schemes (CILAS) to the State Legal Aid and Advice Boards for the purpose of holding Lok Adalats. The assistance is being provided at the rate of Rs. 5000 per Lok Adalat.
